Attachments: Keystone DMR - First Quarter 2016.pdf

Chris,

Thanks for the information and an update on the project. Attached is the Keystone DMR for the first quarter 2016.

Larry,

Thanks for the update on your inventory. I have all these, which I'll attach since the file sizes are sufficiently small. The one quarter I do not seem to have going back through 2011 is 1Q of 2016. If you happen to have a copy of this that you could forward to me, I'd appreciate it.

Since I have you, a quick update on site work:

- The four new LMP/piezometer pairs are in and the initial sampling work was performed (both by WM and splits by the OGD). I was advised that all but one LMP contained sufficient liquid for sampling. Samples were also collected from the piezometers. The interesting part will be interpreting the data and wrangling over the meaning. The installation and sampling work will be summarized by the Owner/Operators in upcoming reports.
- Extraction well K-3 was brought on-line in late 2017, and the OGD will soon submit a completion report summarizing activities. Not long afterward, I would expect the OGD to report on the updated capture scenario with K-3 on-line. This is an old well at the site and had the highest driller-reported yield (8 gpm) of any well that I know of. I had been a fan of attempting a conversion of this well, and it will be interesting to see how groundwater on the south side of the landfill looks with this well operating.
- As I believe I mentioned to you, the OGD will have a new supervising contractor and project coordinator. Jack McBurney is retiring soon and the transition to his replacement and a contractor replacement for de maximis, inc. has begun. The new firm will be BSI-Quantum Management and the new PC will be Kevin Svitana. Kevin has been a technical consultant to the OGD for years and in the environmental field for about 30 years, so he's new neither to the field or site.

That's it for now.

Thanks — Chris

Chris,

Following an exhaustive search for DMRs for Keystone, I found that the ones I don't have (PDF version) are as follows:

1. 2012 first, second, third, and fourth quarters
2. 2013 first and third quarters
3. 2014 fourth quarter
4. 2015 fourth quarter
5. 2017 first, second, and fourth quarters

Thanks.

Larry

Subject: Keystone Sanitation Landfill Request for DMRs
Importance: Low

Chris,

Would you check to see if you have PDF copies of the DMRs (not the Activity Reports) for Keystone Sanitation Landfill? If you don't have these easily accessible and in PDF version then do not take the time to search for them. I'll do a library file search and locate hard copies and then download them to PDF to our server files. I have been receiving PDF versions of the Activity Reports, but not always the PDF of the DMRs. Hard copies of both have been mailed to me, which of course I file.

I just realized that I've been filing the hardcopy DMRs, but only placing the Activity Reports on our Server project folder.

Again, if you can do this with a minimal of time, please send them to me.

The dates I need DMRs for are as follows:

1. 2012, 2013, 2014, 2015, and for 2017 the first, third and fourth quarters.

Thank you.
